Leachman Kingdom 8251 was die stoetvaar wat die grootste impak op Rooi Angus in Suid-Afrika gehad het. Hy is ingevoer deur Charles Pope. Hy word nasionale kampioen in 1992 en sy nageslag domineer vir die daaropvolgende 15 jaar die nasionale kampioenskapskoue, met diere soos o.a. SA Grootkampioene: Marshmoor Sir Warrior, Loumotta Jim, Loumotta Frans en Loumotta Tank (kleinseun); SA Grootkampioene (vroulik): King Shiraz, Vansia Sonia 761 om maar net 'n paar te noem.

John Deere is the current National Champion bull and was bought for a record price of R255 000.00 We admire him for his length of body and exceptional capacity. With his low birth weight he is a very good option to open your heifers with. He also has excellent growth and a very good milk figure as well. We are very happy with his progeny and feel he will leave his footprints in the South African Angus industry. We have one heifer on sale today, lot 54, and she is a good example of the length and good capacity he breeds. We are selling 25 straws of his semen today.

Sure is die huidige Nasionale Kampioen Rooi Koei. Ons het 'n halwe aandeel op die 2017 "Sale of Champions" verkoop aan André Markgraaff vir R145 000. Sy het dan ook die Nasionale Interras Kompetisie by Alfa 2017 gewen. Ons het dit goed gedink om 2 in vitro-embrio's aan te bied. Ons het Mulberry gebruik vanwee die feit dat haar 2018 bulkalf 385kg gespeen het by André Markgraaff en hy tans in hul skouspan is vir die Nasionale Kampioenskappe in Moorreesburg. Met n melksyfer van 18.6 is sy dan in van die hoogste in die land. Ons gee dan aan die koper die opsie om, indien hy belangstel, nog 3 in vitro-embrio's teen die selfde bedrag te koop wanneer ons haar dan weer na In Vitro SA neem in November 2019.

We combined two of the most prominent Black Angus cow families in these possible red or red gene carrier embryos. The Mino line brings well-made muscling to the table. With the maternal power of the John Deere X Jewel combination, this promises to be something special! The embryo calves have the possibility of 50% red / 50% black.

Tequila is everything you can expect of a herd bull. He is efficiently built and long-bodied with a perfect foot structure. Tequila has a complete balanced set of BLUB figures and he ranks in the top 1% of the breed, for weaning and yearling weight, respectively. This is the first Julian 1W son that will sell in South Africa. His mom backs him with a figure of +9.8 on milk and has an ICP of 355 over 7 calves.

Ek het dit sterk oorweeg om Dollars terug te hou in die Loumotta-kudde. Hy is 'n voorbeeld van hoe 'n Angusbul moet lyk. Die balans tussen Angus karakter en bouwvorm is iets spesiaals. Sy pa, Calidad, oorspronklik van Agrentinië, het uitstekend gewerk in ons kudde; beide sy manlike en vroulike nageslag is van hoogstaande gehalte. Dollars se ma, Lucia, het 'n melksyfer van +10.3 en 'n TKP van 360 oor 7 kalwers. U sal ook oplet dat daar 'n Kingdom-suster van hierdie bul (uit dieselfde ma) vandag aangebied word as lot 41.

Jeep is 'n bul met baie goeie breedte en diepte. Sy kapasiteit val 'n mens dadelik op. Hy het ook uitstekende syfers met 'n lae geboorte en bo gemiddelde speengewig en dan ook baie goeie melk. Hy is beslis 'n stoetbul. Sy moeder is 'n halfsuster van Roechama Suré wat die huidige Nasionale Kampioen koei is en het ook 'n pragtige uier. Moenie die bul mis nie.

This is a bull with very good length of body, good hind quarter and a very good Angus head. He has all the attributes of his half-brother, Roechama Elegance, who won at the Hertzogville, Vryburg and Bloemfontein shows in 2018. He was also runner-up to the Gold Cup in Bloemfontein and qualified for the National Interbreed Championships at Alfa in 2018. I really like this bull a lot, but decided to sell him as we are still using Elegance in our herd.

Rocket het 'n indrukwekkende toplyn; hy loop met groot gemak en hou sy kop natuurlik hoog wanneer hy beweeg. Hy het 'n 32kg geboortegewig gehad wat hom die ideale keuse maak vir gebruik op verse. Sy pa, Heritage, se nageslag het die Angusbedryf werklik beïndruk. Sy ma, Tessa, se melksyfer van +15.3 tel onder die top 1% melksyfers van alle Anguskoeie.

We unfortunately only have 2 black bulls on sale today. I think both of them will do a good job in any herd. This bull would have represented the breed in the Vleissentraal Growth test competition at Bloemfontein show 2019, but was unfortunately injured just before the show. This is a hardy bull with a good hindquarter and is very strong over the loin area. He is also a red gene carrier.

Demi 10 is the first Pacesetter daughter to sell in South Africa. She shows tremendous balance, ideal udder structure and teat size. She is backed by the highly productive Demi cowline that already bred a national champ.

Hierdie sterk Kingdom-dogter sal vir seker die oog vang! Met haar geweldige lengte, goeie tophyn en uitstekende beweging behoort sy in 'n top stoetkoei te ontwikkel. Die Lucia-lyn is geteel uit Leachman Larcaba wat bulle soos Hijlettas Solid Gold en Loumotta Tank opgelewer het. Haar broer het verkoop as lot 9.

Here is one of the 2 daughters on sale today of RCM 1466 the highest priced bull on the 2017 Alliance sale. She has excellent legs, a good topline and good width. I really like this heifer. Look at her dam's ICP of 359 over 5 calves. Fertility is the most important trait in breeding.

Probably as much proven genetics in this female as you will find. She has two Gold Cup winners in her pedigree and her cowline traces all the way back to Leachman Minervina 4204, that had a major impact in the late Oom Lieb du Preez's herd. Stacy's Mom, in her own right, mirrors a near perfect design. If you are looking for quality, this heifer is it!

This is a very strong cow with excellent width. Her sire is out of the Gazella line, regarded by Loutjie as one of the best cowlines in South Africa. She has an excellent milk figure and weaned at 287kg. A cow not to miss! She is selling with her calf, sired by RCM 12172, who has 2 heifers and a bull on this sale and he is also the sire of Roechama Elegance.
